

OFFICIAL VISUAL GUIDE · V1.0.6

How to Open & Run Oncilla OS

Follow these quick visual steps to launch Oncilla OS on your computer.

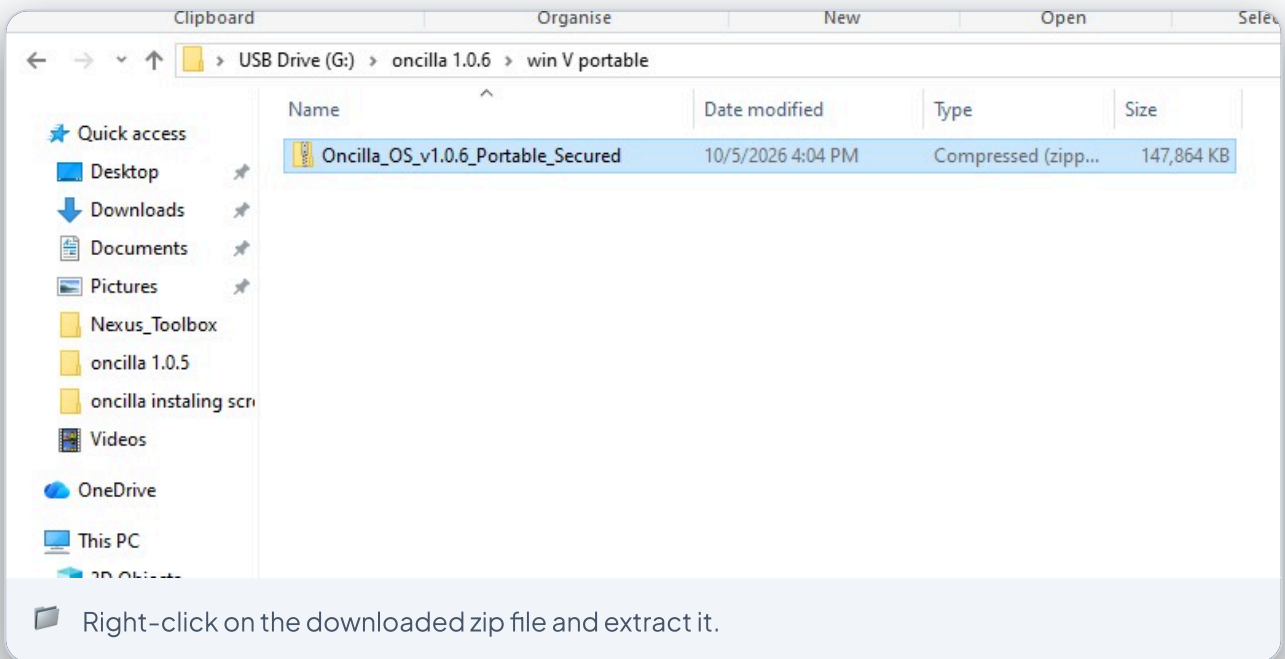

Windows Setup Guide (Portable Version)

Windows 10 & Windows 11 · Zero installation wizard required

1

Extract the Downloaded Zip File

Go to your **Downloads** folder. Right-click on `Oncilla_OS_v1.0.6_Portable_Secured.zip` and click **Extract All...**

2

Open the Folder & Double-Click Oncilla OS

Open the extracted folder and double-click the file named **Oncilla OS**.

⚡ Double-click the Oncilla OS application icon to launch.

3 Bypass Windows SmartScreen (First Time Only)

If Windows Defender shows a blue security box "*Windows protected your PC*", follow these 2 quick clicks:

Windows protected your PC

Microsoft Defender SmartScreen prevented an unrecognized app from starting. Running this app might put your PC at risk.

[More info](#)

Don't run

Click 1: Click on [More info](#)

Windows protected your PC

Microsoft Defender SmartScreen prevented an unrecognized app from starting. Running this app might put your PC at risk.

Application: Oncilla.OS.Setup.1.0.5.exe

Publisher: Unknown publisher

Run anyway

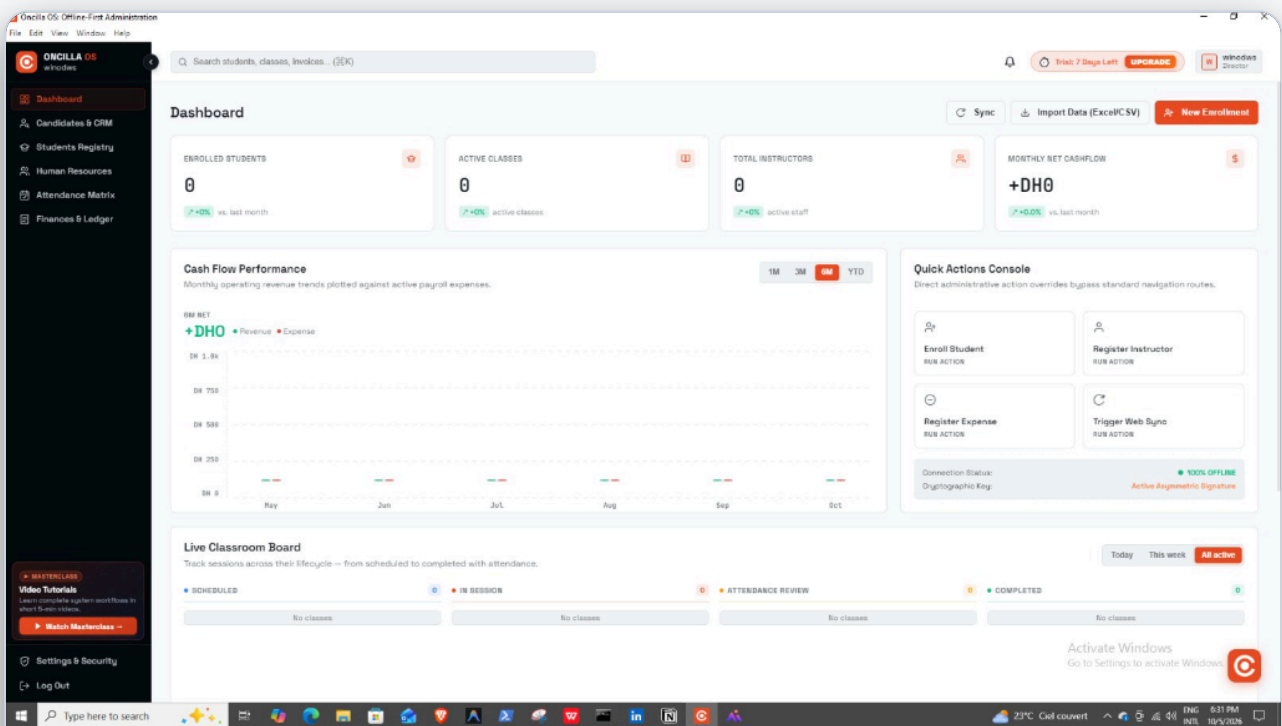

Don't run

Click 2: Click [Run anyway](#).

💡 **Why does Windows show this?** Because Oncilla OS is a portable offline desktop app that doesn't use the Microsoft Store. Clicking "Run anyway" allows it to run safely on your PC.

4 You Are Ready! Oncilla OS is Running

The Oncilla OS dashboard will open instantly. Enter your 7-day trial key to start managing your students, courses, attendance, and finances 100% offline.

🎉 Oncilla OS running 100% locally with zero internet dependency.

macOS Setup Guide

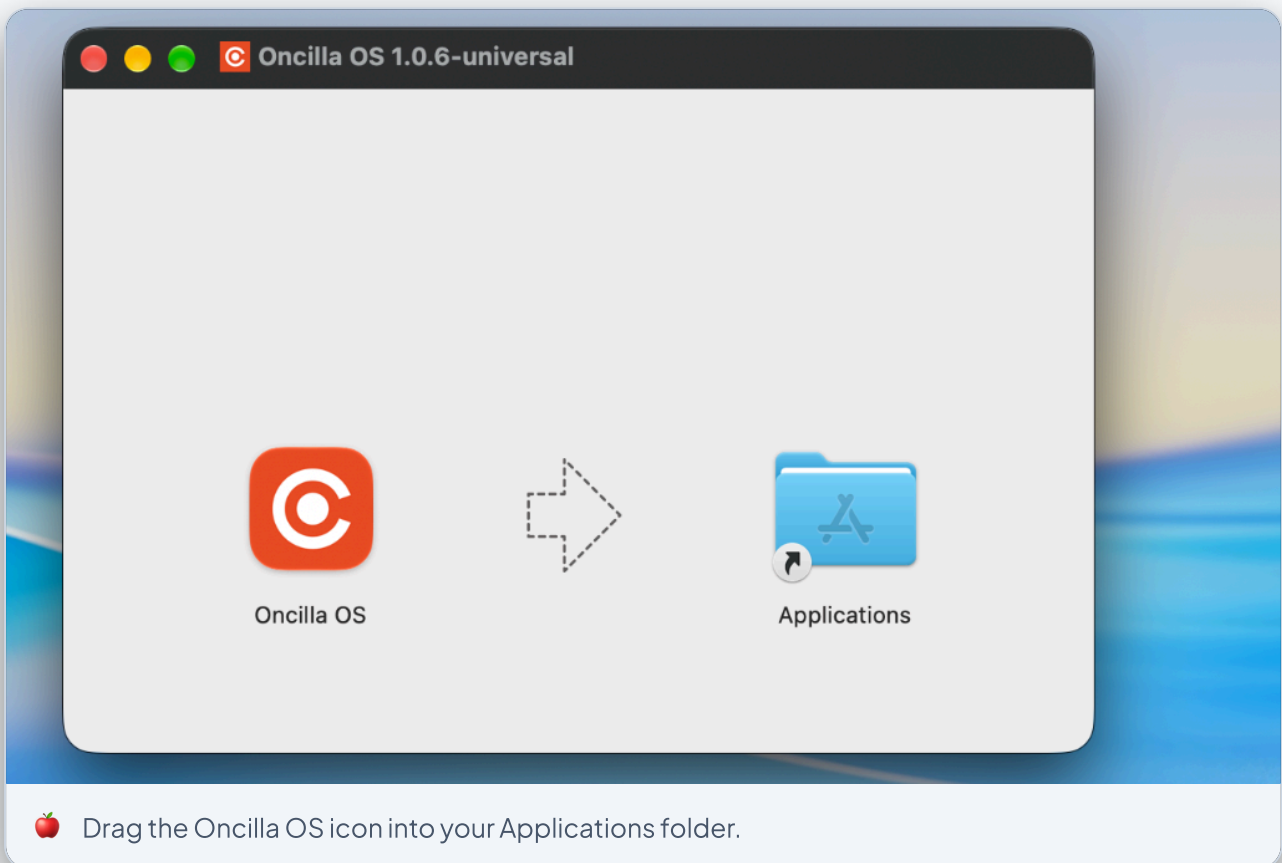

Apple Silicon (M1/M2/M3/M4) & Intel Macs

1 Open the Downloaded .dmg File

Double-click `Oncilla_OS-1.0.6-universal.dmg` in your Downloads folder.

2 Drag Oncilla OS to Applications

In the window that opens, drag the **Oncilla OS** icon into the **Applications** shortcut folder.

3 First Launch (Gatekeeper Permission)

Open your Applications folder. If macOS shows *"App cannot be opened because developer cannot be verified"*:

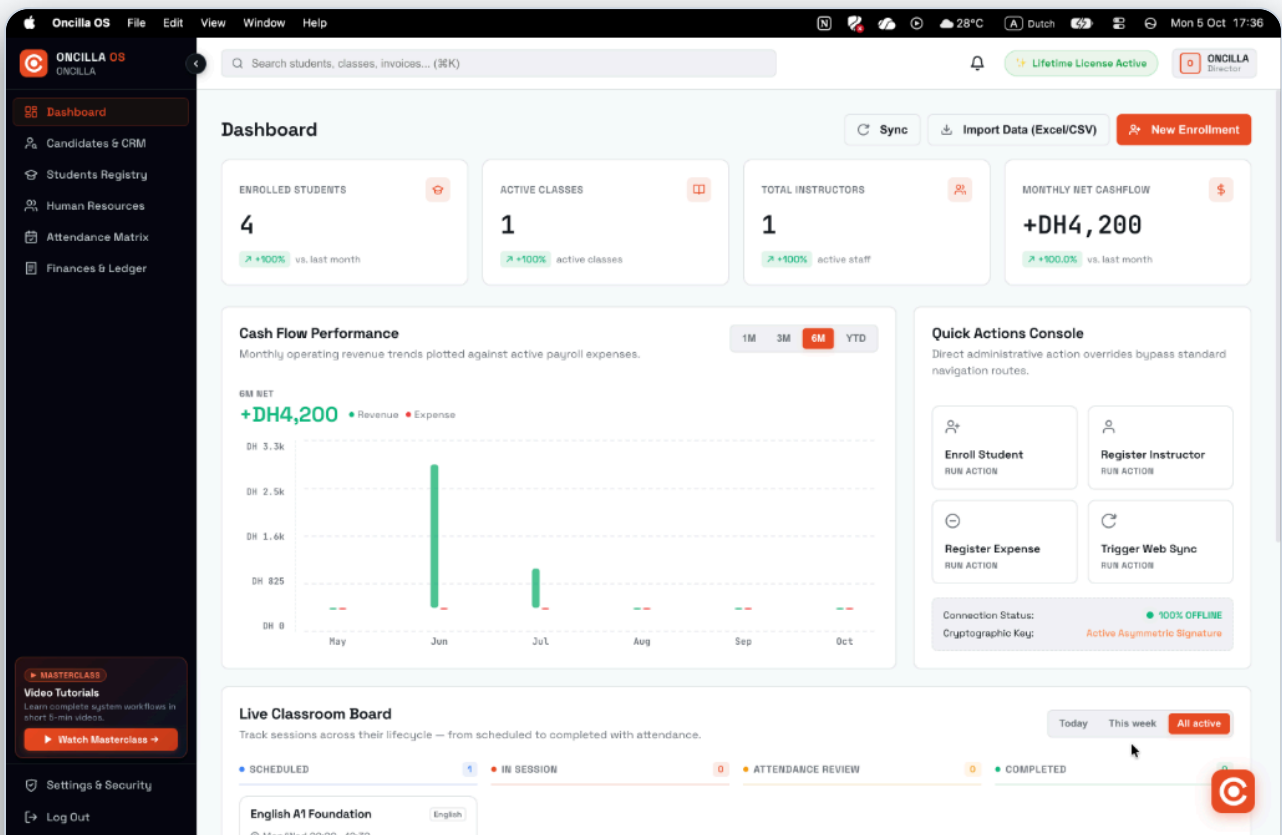

How to open:

1. **Right-click** (or Control+click) on Oncilla OS in Applications.
2. Click **Open**.
3. In the pop-up window, click **Open** again.

4

Oncilla OS is Ready to Use

Oncilla OS will launch with its native macOS top menu bar. You can now manage your students, attendance, courses, and offline AI assistant.

Oncilla OS native desktop application running on macOS.
